

HFJ-5P2426

All moving computerized quilting machine

JOCKY

Features

1. The area is only 3/5 size of other machine, suitable for facade room.
2. High precision: the mechanical structure abandoned the traditional operation way and realize absolutely still during quilting with only head moving.
3. Adopt the long route head to improve the stability of super thick quilting, apply with precision square axis guide rail and steel core polyurethane synchronous belt to optimize the machine combination.

MORE INFORMATION

Technical Specification

Model	HFJ-5P2426
Max quilting size	2400x2600mm
Max needle drop size	2200x2400mm
Quilting thickness	≈1200g/m ²
Spindle speed	500-2000r/min
Needle size	18-23#
Needle distance	2-7mm
Voltage	220V 50Hz
Power	2000w
Dimension	2800x2900x1150mm
Net weight	500kgs
