

HFJ-9X2628

JOCKY

Computer quilting machine, with servo synchronization system, head lifting and auto thread trimmer, auto lubrication

Features

1. Auto head lifting stroke is 10cm, which makes the quilt frame easier to get up and down , and protects the needle bar and presser foot bar from damage effectively;
2. Adopts four-axis servo motor direct drive, high-speed and silent. Simplifying the mechanical structure and minimizing mechanical failures;
3. Automatic rotary hook cycle oil storage, making the rotary hook more durable and longer using life;
4. Adopts high-stability circular knife to cut the thread, so that the cutting length of the thread ends on the bottom surface is consistent;
5. Adopts the mouse operating system, easier to operate;
6. Adopts precision linear guide rails to make the machine run more stable and smooth, stitch skipping and thread breakage won't be happened easily.

MORE INFORMATION

JOCKY

Technical Specification

Model	HFJ-9X2628
Machine size(mm)	3600x5500x1500mm
Max. Quilt size	2600x2800mm
Max.Quilting size	2400x2600mm
Quilting thickness	1500g/m ²
Max. spindle speed	1500-2500r/mim
Needle size/space	18-23#/2-7mm
Voltage	220V 50Hz
Power	2KW
System configuration	4 servo motor control system
Data interface	A serial port connection, support U-disk
Net weight	1500KGS
