

JK-185S-1 series

Automatic inspection machine

JOCKY

Features

1. Equipped with sophisticated internal infrared electronic edge control to ensure neat cloth edge during winding.
2. Equipped with infrared electronic automation system controlling fabric loosening operation and prevents stretch material from tensity.
3. Back and forward winding movement speed control adjustable fabric winging tension and re-inspect on fabric rolls miss inspection.
4. High quality stepless speed control with winding speed from 0~50m/min.
5. Equipped with automatic fabric loading button to avoid fabric deformation handling loading.
6. Equipped with automatic shut down and reset function operation.
7. Various color separation lamp for better color matching.
8. Fabric inspection area used high quality transparency materials to allow strong internal and external lighting for fabric inspection operation.
9. Equipped with high precision meter for indicate accurately record the length of the clothing roll.

MORE INFORMATION

Technical Specification

Model	JK-185S-1/72	JK-185S-2/88
Max. speed	50m/min	
Max. Cloth width	1850mm (72")	2250mm (88")
Voltage	220V/50HZ	
Power	2.4KW	
G/N weight	390/320kg	460/390kg
Machine size	2400x1500x1840mm	2800x1500x1840mm
Packing size	2650x1700x1900mm	3050x1700x1900mm
