

JK-A02

JOCKY

Computerized full automatic placket sewing machine

Features

1. Microcomputer control, intelligent touch screen, automatic feeder
2. The world's first patented technology: single/double cutters with dual-shaft structure can be installed and selected, and the position of the lower cutter is controlled digitally, running smoothly, with less wear and tear
3. Laser light marking positioning, accurately lock the position of the fabric to be processed
4. The movable needle slats with tight seams and no grooves can ensure the smooth movement of the fabric during the sewing process and keep it straight and tidy

MORE INFORMATION

Technical Specification

Model	JK-A02
Voltage	220V AC, 1Ph, 50-60Hz
Air pressure	0.5-0.6MPa (5-6kgf/m ²)
Needle size	DBx1 (10# 11# 12#)
Sewing precision	± 0.02mm
Needle pitch	1.00-5.00mm
Sewing speed	400-4000 rpm
Sewing Width	1.00-50.00mm
Sewing Length	1.00-320.00mm
Output	3-8 seconds/piece (Depends on the size of the T-shirt)
Dimension	1600x880x1410mm
Packing size	1680x950x1450mm
Weight(G.W/N.W)	373/300kgs
Cutter device	Can be installed with single or double knives
Cutting mode	Center single cutter, variable edge cutting ; Center double cutter, adjustable cutting width
