

# JK-CH1702

## Magnet Semi-automatic Heat Press

# JOCKY

## Features

1. Integral moulding cover plate, with rebound of buffer heating plate .
2. Pressure can be adjusted according to the thickness of the transfer material .
3. High-quality electromagnet, smooth surface , stronger suction, good temperature stability and insulation, stronger electrical conductivity, more stable .
4. Thicker stainless steel, thicker bottom platen makes more beautiful image printing .
5. The polygonal hand wheel has more friction and easy adjustment .
6. With emergency stop switch .

# MORE INFORMATION

## Technical Specification

Model	JK-CH1702
Power	2200W (220V ) 1600W (110V )
Voltage	220V / 110V
Print area size	40x50cm (16"x20")
Time setting range	0-999s
Temperature setting	0-300℃/0-482°F
Dimension	880x410x930mm
Folded Dimension	710x415x470mm
Working area	762x143mm
Packing size	845x495x625mm
Weight(G.W/N.W)	46/36kgs
