

JK-P207E

Semi automatic garment packing machine

JOCKY

JK-P207E

JK-P217XE (with bottom sealing function)

Features

1. Packaging materials HD/PP/PE and non-woven fabric can be used for sealing and cutting.
2. It adopts a double-button switch to ensure safe pairing, has a compact design, low noise, high production efficiency, and the life of the cutter can reach more than two years.
3. When the clothes are on hook, only need to press the start button to automatically pack them.
4. Due to the use of sensors, it can be automatically adjusted according to the length of the clothes. If the clothes are too long and exceed the range, the cutting film can be manually adjusted and sealed.
5. All electronic control components are made from Japanese Omron products, and the transmission motors are made from Taiwan's Liming Motor.

MORE INFORMATION

Technical Specification

Model	JK-P207E	JK-P217XE
Film width	600mm	
Processing capacity	350 pieces/h	
Air pressure	0.5Mpa	
Power consumption	500W	
Voltage	220V single phase	
Machine size	835x810x950mm	970x780x2350mm
Packing size	950×850×2000mm	950×850×2000mm
Weight(G.W/N.W)	200/180kgs	240/200kgs
