

JK-P218XE

JOCKY

Automatic garment packing machine with bottom sealing

JK-P208E

JK-P218XE (with bottom sealing function)

Features

1. The packaging length can be automatically adjusted according to the length of the clothes.
2. Use pulse flat line sealing to ensure that the material will not be damaged during the sealing process and will not emit a burnt smell.
3. This equipment has high cost performance, stable performance, and smooth and neat sealing and cutting effects. The unique widened center design prevents the packaging film from being broken when packaging thick and large clothing that wears hats.
4. Cut the plastic film along the shape of the shoulders to make the packaged clothing beautiful and stylish. The machine will automatically notify when there is no plastic film.
5. When the equipment fails, the fault content will be displayed on the touch screen, making it easier for you to repair and maintain.

MORE INFORMATION

Technical Specification

Model	JK-P208E	JK-P218XE
Film width	600mm	
Processing capacity	450 pieces/h	
Air pressure	0.5~0.7Mpa	
Power consumption	800W	
Voltage	380V three phase, 50Hz	
Machine size	850x950x1950mm	1400x950x2620mm
Packing size	1150×1100×2360mm	1550×1100×2760mm
Weight(G.W/N.W)	350/300kgs	350/300kgs
Bottom sealing	No	Yes
