

JK254-ZD

Full automatic double needle
belt loop sewing machine

JOCKY

切料头特点Cutting mode:

三角斜切Triangle cutting

平切 Flat cutting

Features

1. It has a fast operating system and a fully visualized human-machine interface.
2. The mechanical structure is simple, the operation is convenient and the adjustment is flexible, and the production efficiency is high.
3. The unique design of the automatic detection device can screen out the waste at the crotch joint, and realize automatic screening and cutting.
4. This machine streamlines procedures off our workers including cutting belt bar-tacking carrying .
5. Not only save the salary of workers but also improves efficiency by 70%.

MORE INFORMATION

Technical Specification

Model	JK254-ZD
Max. speed	2700 rpm
Needle type	DBX17 (19-21#)
Thread No.	Cotton spinning line (30-50#)
Presser Foot lifter	21mm
Stitch length	1.0-3.5mm
Stitch width	5.0-22.0mm
Belt length	7-20mm
Belt width	45.0-75mm
Pattern memory	Standard 9 sizes
Motor power	550w AC220V
Air presser	0.5Mpa 1.8L/min
Packing size	1220x1440x1450mm
Weight(G.W/N.W)	180/150kgs
