

JK430D

Electronic bar tacking machine

JOCKY

Features

1. The highest speed is the industry: max. 3200rpm.
2. Make high quality sewing completely according to sewing data.
3. Low noise and vibration.
4. The rigidity of the higher frame is adopted. Through the latest computer analysis, the various details of the componets have been obtained between the good balance, noise and vibration are minimized.
5. Using the industry's best quality and high precision parts, performance is more stable.
6. Can be used for men's wear, women's wear, underwear, jeans, knitting and other different application.

MORE INFORMATION

Technical Specification

Model	JK430D
Max. speed	3,200 sti/min
Max. Working area	40x30mm
Needle type	DPX17 #14-24
Stitch length	0.5-12.7mm
The height of presser foot	17mm
Power	550W
Package	710x450x550mm
Weight	60/55kgs
