

JK8100A-8045

JOCKY

Automatic pattern template sewing machine

Features

1. Realize template machine miniaturization, directly into the clothing assembly line, no skilled operation.
2. X Y transmission system double synchronous belt drive
3. The electronic auto adapting presser foot presses the sewing object accurately to prevent thread jumper and thread broken.
4. Laser pocket welting function, focusing on all kinds of pocket welting, such as: zipper pocket, single and bilateral pocket.
5. With blade for cutting, used for pocket welting, pocket cover edge trimming and collar edge trimming. Suitable for white fabric cutting.

MORE INFORMATION

Technical Specification

Model	JK8100A-8045
Sewing range	X: 80cm Y: 45cm
Stitch type	301 lockstitch form
Max. speed	3000rpm/min
Max. stitch length	0.5-12.7 mm
Needle type	DBX1 (#8) 7#-14#
Hook	Double capacity hook
Middle presser foot	Stroke of 4mm as standard, Max. position adjustable range: 20mm, position data 9mm
Program input	USB
Voltage	220V
Pressure	0.4-0.6MPa
Power	550W
Packing size	1530x1320x1250mm
Weight(G.W/N.W)	380/305kgs
